Dear Bob,

By coincidence I'd been working on arranging for xeroxing copies of my "Oswald in New Orleans" when at 1 a.m. (EDT) I decided to listen to the CBS news and there you were, reporting on Keating.

So much has happened since the night of that blizzard in Boston not long after news about what Jim Garrison was doing first broke!

I used to hear Bickley from BBM nights until a local station started giving that signal interference.

I hope things are going well with you and that you are happy in LA.

Oliver Stone and his "JFK" are treated differently in LA from clippings I'm sent, business being business, but when he has clammored about the CIA and its "pecipied" reporters and The Establishment being out to get him he was and he knew he as talking about me. I am the one who started criticism of what he was up to in that movie and I wrote him first, in some detail, without any response.

It is a long story for which I do not take time but in 11/22, when several members of his staff asked me to, I prevented what they had not been able to prevent, a real atrocity - his planned commemoration of the assassination's fifth anniversary by charging two new Grassy Knoll assassins, both innocent. One had actually killed himself 15 months earlier and Garrison knew it!

This and more made no difference to Stone - and that is how you get rich and famous and "earn" honors.

Best wishes,

Harold
